State Plan Development Timeline

2019 (June – December)
  • Statewide survey (18 languages); townhalls; 3 State Plan Committee (SPC) meetings

2020
  • 6,329 responses collected/analyzed; research; 9 SPC meetings; State Plan draft; Council approval; public review/comment period; review/analysis of public feedback; finalized goals & objectives

2021 (January – September)
  • Collected RAC input; analyzed emerging issues; confer with federal partners; complete research/analysis/writing; submit State Plan (9/30)
• The State Council on Developmental Disabilities (SCDD) is required by federal law to develop a new State Plan every five (5) years.

• The State Plan has goals and objectives that describe the work that SCDD will do for the next five years throughout California.
Recent State Plans

• 2012 – 2016: 15 goals/32 objectives
• 2017 – 2021: 6 goals/14 objectives
• 2022 – 2026: 3 goals/9 objectives
The federal recommendation has been to limit the number of goals (to only two or three), in order to make the most of Council resources and time and produce more significant outcomes.

The new model is built on federal requirements that are mission-driven (Federal DD Act).
According to the federal DD Act, the work of the Council must include:

<tr>
<th>Advocacy</th>

<tr>
<td>Systems Change</td>
</tr>
<tr>
<td>Capacity-Building</td>
</tr>
</tbody>

Advocacy

SCDD works to support people with intellectual/developmental disabilities and their families in being strong self-advocates and community leaders.

The Council represents the interests of diverse people with I/DD and other disabilities throughout the state.
• Systems change is about people working together to change practices, policies, regulations, laws to remove barriers and improve services

• These changes will lead to positive and helpful outcomes for people with developmental disabilities and their families
• Systems can be:
  • Big or small
  • Community/agency-based
  • Regional
  • Statewide

• DD Councils work to change things that cause problems for people with developmental disabilities and their families
According to the DD Act, “capacity-building activities” means activities (e.g. training and technical assistance) that expand and/or improve the ability of individuals with developmental disabilities, families, supports, services and/or systems to promote, support and enhance self-determination, independence, productivity and inclusion in community life.
