

2022 PROGRAM PERFORMANCE REPORT (PPR)

In California, there are:

GOAL 1

SELF-ADVOCACY

Council's Self-Advocacy Efforts

**12 Statewide &
112 Regional
Self-Advocacy Chats**

**1 Statewide &
15 Regional
Self-Advocacy Groups**

**69 Trainings &
700 Peer Leaders
Prepped**

**18 Self-Advocacy
Projects
& 7 Events**

**Voting Workshops
for People with
Disabilities**

SAC12

**Leaders Empowering
Self-Advocates
Leadership Project**

Self-Advocacy Projects

Technical Assistance: Anecdote

A self-advocate with diabetes was attending a conference and struggling with used medical supplies, noting that there was no sharps container in the bathroom. She asked Council staff for technical assistance and discussed the issue. The self-advocate then asked hotel staff about a container to dispose of 'sharps' and discovered that, in fact, they had never been asked for one before and it was an oversight that they did not have one available. As a result of this individual's self-advocacy efforts, the hotel will now supply sharps containers in bathrooms at all of their facilities.

Goal 1: Progress toward 5-year Measures

SA Trainings

55%

A horizontal progress bar for 'SA Trainings' showing 55% completion. The bar is divided into a dark blue segment representing 55% and a light blue segment representing the remaining 45%.

**SA Trained &
Supported**

518%

A horizontal progress bar for 'SA Trained & Supported' showing 518% completion. The bar is entirely dark blue, indicating that the goal has been exceeded.

**SA Reached
through SA
Groups**

39%

A horizontal progress bar for 'SA Reached through SA Groups' showing 39% completion. The bar is divided into a dark blue segment representing 39% and a light blue segment representing the remaining 61%.

GOAL 2

SYSTEMS CHANGE & ADVOCACY

Council's Systems Change Efforts

**Monitored 200
Systems/Entities
& 16 Bills**

2,041 Meetings

**147 Trainings &
2,400+ Professionals
trained**

**2 Statewide Projects
34 Regional Projects
2 Cycle 44 Projects**

Legislative Successes

- **AB 1663** (Maienschein): Probate Conservatorship Reform
(becomes effective 1/23)
Formalizes 'supported decision-making'
Will impact more than 150,000 Californians
- **SB 1092** (Hurtado): DDS/Regional Center Fair Hearing Reform
Mediation will be voluntary
Moves Fair Hearings to DSS
Increases fairness and transparency

Systems Change Projects

(by topic area)

14 Health and/or Safety

6 Employment

3 Education

9 Housing

4 Self-Determination

4 Formal & Informal Community
Supports

Statewide Systems Change Projects

**The Self-Determination
Program**

**The elimination of
sub-minimum wages**

Systems Change Projects

Los Angeles Unified School District (LAUSD)

Alternatives to Conservatorship: Training, ITP Template and Technical Assistance (TA)

IMPACT:

- Supports students' civil rights by providing alternatives to the restrictive practice of conservatorships
- Students will become more effective self-advocates - not only in school settings, but in all environments and systems with which they interact and engage

Systems Change Projects

Bridging the Gap: Integration of Behavioral Health Services

- Blended DDS & MHA funding to improve crisis response and build new leadership groups
- 450 people trained about Pw/IDD, Behavioral Health services and gaps in service systems
- 200 law enforcement personnel trained

IMPACT: Will improve crisis response, provide greater service integration and reduce stigma for PwI/DD

Systems Change Projects

ILS/SLS/ISP Vendors: Best Practices Model

- SCDD created a SMART goal 'bank' to help vendors streamline goal development
- SCDD trained vendors to use SMART goals to develop ISPs and chart measurable client progress and skill development
- RCOC now requires all ILS/SLS vendors to use SMART goals

IMPACT: Vendors are now able to track and switch goals as clients achieve full mastery of skills

Systems Change Projects

UCSF: Annual Developmental Disabilities Update for Health Professionals

- Participated in planning committee
- Trained 275 health professionals
- Provided technical assistance

IMPACT: Health professionals (in various roles) are better informed, educated, and networking to use innovative practices and provide better access and equity for PwI/DD within health care systems

****Cycle 44: CHiME Institute**

Inclusive Model for Self-Determined Learning - Outcomes

Created a pilot project to ensure that self-determination and person-centered planning practices are strategically embedded within students' educational programs from preschool through 12th grade.

- Developed an online 'strategy' toolbox to promote self-determination skills
- Added a Self-Determination goal option on LAUSD IEP forms
- CSU Northridge is now using the Self-Determined Learning Model of Instruction (SDLMI) with all teachers in the Induction Program
- 'Promoting Self-Determination Skill Growth in Inclusive Pre-K-12 Classrooms' will be presented at the annual TASH conference

Cycle 44 Project: Down Syndrome Connection of the Bay Area

Mental Health & Wellness Alliance - Outcomes

Created a pilot project to train and support mental health professionals to provide therapy for PwI/DD – specifically, those with Down Syndrome and/or co-occurring disorders

- Trained/supported 12 therapists
- Developed tools to help PwI/DD cope with mental health issues
- Developed and customized communication boards for PwI/DD to express thoughts and feelings during therapy
- Adapted an outcomes measurement tool to track program results

Anecdote

SCDD regional staff provided information about AB 1663 and TA on legislative/systems change work during meetings of Madres Lideres (a Spanish-speaking parent support group). Parent leaders mobilized other family and self-advocates to call and write to their legislators in support of AB 1663. The Council learned that at least 20 advocates contacted their legislators urging support of AB 1663, which was recently signed!

Parent leaders reported being proud of their efforts and thanked staff for building their capacity to engage in this type of activism. The fact that AB 1663 was passed and signed into law has been an encouraging experience and has motivated parent leaders in partnering with the Council and continuing their systems change efforts through the legislative process.

Success Story

SCDD provided training on IPP strategies to staff from California Deaf & Blind Services. After receiving training, these professionals were able to successfully advocate for their client and educate the RC to increase cultural competence in serving the deaf-blind community.

As a result, their client was able to access the use of an intervener (a person who works one-to-one with an individual who is deaf-blind to help gather information, develop and use communication skills, and establish relationships), which is not a commonly requested RC service.

GOAL 3

CAPACITY-BUILDING & ADVOCACY

Council's Capacity-Building Efforts

412 Collaborative Meetings

Provided TA to 7,087 People

414 Trainings & 73 Peer Leaders Prepped

38 Capacity-Building Projects
2 Cycle 44 Projects
44 Events

Capacity-Building Projects (by topic area):

8 Health and/or Safety

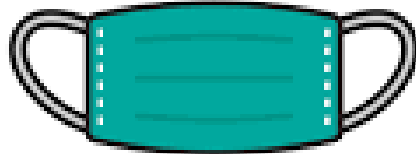

6 Employment

15 Education

4 Self-Advocacy

5 Formal & Informal
Community Supports

COVID Distributions

2,848,289 pieces of PPE

319,368 Covid tests

Capacity-Building Projects

Colaboración Latina

SCDD served as a core partner, assisted with planning and provided training and TA to a new collaborative of **12** organizations, creating learning opportunities around resources, services, responsibilities and rights for Spanish-speaking families that have children with I/DD

IMPACT: SCDD increased families' knowledge about advocating for rights and accessing important services and supports for their children

Capacity-Building Projects

Yurok Tribe ECE SpEd Training Collaborative

In a collaboration with the Yurok Tribe, the Disability Rights Education and Defense Fund (DREDF) and the Northern California Indian Development Council, SCDD provided three 2-day special education trainings, providing families and professionals with the necessary skills and information to navigate the special education system

IMPACT: SCDD proceeded with care, patience and humility to build bridges and strengthen opportunities and skills of Yurok Tribal members with I/DD

Capacity-Building Projects

Madres Lideres

SCDD created this peer leadership group that provides Spanish-speaking parent leaders with TA, capacity-building, and a safe space to network. This group has created a task force of parent leaders that advocates for local systems change efforts.

IMPACT: Parents used their new skills to train others in their community and report that they are more effective in advocating for and receiving services. They now serve as a focus group for SCDD's survey/review requests.

Anecdote

Council staff provided information and technical assistance to a family advocate (over a 6-month period), in response to a regional center's denial of service. With this help, the family advocate was able to present a case to the administrative law judge, justifying regional center funding for supported living services (SLS) and supports during the adult son's (SA) hospitalization. The family won its case against the regional center, which was ordered to pay the cost of SLS provided - in the amount of \$2,624.21.

Thank You!!

During the pandemic, diverse language needs and the lack of accessible transportation were barriers that made it difficult for people to access testing and supplies through traditional locations. Community partners reported significant community hesitancy for fear of such activities being used to arrest those who are in the U.S. and are undocumented.

The Council's many collaborative partners reported to staff that providing scarce resources (e.g. PPE, Covid test kits, etc.) to those who are underserved (BIPOC – those people with disabilities who are black, indigenous, and people of color, as well as non-English speakers) was remarkably valuable and sent their deep appreciation and thanks for all the hard work of the Council's staff members throughout the state.

More Successes

2 family advocates reported that TA provided by SCDD staff helped them win a Fair Hearing against the regional center and that they both received the services they were originally denied.

10 family advocates shared that the TA they received from the Council enabled them to advocate for and receive important RC services for their children

5 family advocates reported that they were able to access interpretation services for regional center Board meetings as a result of the Council's training and technical assistance

Goal 3: Progress toward 5-year Measures

People Trained

18%

A horizontal progress bar for 'People Trained' showing 18% completion. The bar is light blue, and the first 18% is highlighted in dark blue.

**Technical Assistance
(People Supported)**

14%

A horizontal progress bar for 'Technical Assistance (People Supported)' showing 14% completion. The bar is light blue, and the first 14% is highlighted in dark blue.

**Capacity-Building
Projects & Events**

83%

A horizontal progress bar for 'Capacity-Building Projects & Events' showing 83% completion. The bar is light blue, and the first 83% is highlighted in dark blue.

**SA/FA reached
(Obj. 3.3)**

25%

A horizontal progress bar for 'SA/FA reached (Obj. 3.3)' showing 25% completion. The bar is light blue, and the first 25% is highlighted in dark blue.

2022 OVERVIEW

Disparity Outreach

Activities Serving Diverse Populations

- **356** Cross-disabilities
- **215** Mental illness
- **117** African-American
- **114** Asian
- **88** Native/Tribal/Alaskan Native
- **70** Other
- **65** Homeless/Unhoused
- **64** Elders
- **63** Rural/Frontier
- **50** LGBTQII2
- **46** Native Hawaiian/Pacific Islander
- **24** Veterans

Disparity Outreach

Activities Inclusive of non-English Languages

2	Arabic	13	Khmer
2	Armenian (Eastern)	11	Korean
1	Cama'i (Indigenous Alaskan)	2	Mien
9	Chinese (Cantonese)	20	Other
12	Chinese (Mandarin)	232	Plain Language
2	Farsi	1	Russian
1	French	62	Sign Language
2	Hindi	465	Spanish
5	Hmong	5	Tagalog
1	Japanese	39	Vietnamese

2022 Post-Training Survey Responses

- 83% of those surveyed (SA/FA) were satisfied with SCDD programs & trainings.
- 79% of self-advocates reported increasing their advocacy after participating in SCDD programs & trainings.
- 61% of self-advocates said that they are better able to say what they want or need after participating in SCDD activities.

Total number of Californians directly reached through SCDD activities and outreach efforts in 2022:

1,293,929

Total number of people impacted through SCDD's systems change activities in 2022:

3,768,646
