

The Far Northern Regional Center (FNRC) Self-Determination Advisory Committee (SDAC) has created a Project Coordinator position with the help of Implementation Funds, and it's been a fantastic addition to our team! This role has played a vital part in the success of the FNRC's Local Volunteer Advisory Committee (LVAC).

Our Project Coordinator is all about teamwork—they organize, coordinate, and facilitate the exciting work of the SDAC. As a contracted member of the local SDAC team, they receive guidance from the committee on which projects to take on, making sure everything runs smoothly.

Here are some of the key things our Project Coordinator does:

- Attends our monthly SDAC meetings
- Facilitates and participates in workgroups
- Ensures projects are completed successfully
- Communicates project updates and any challenges to the SDAC
- Prepares monthly invoices along with project progress reports for the committee

The Project Coordinator collaborates closely with the FNRC, the State Council on Developmental Disabilities, Disability Rights California, our community partners, participants in the Self-Determination Program (SDP), and, of course, the SDAC.

Let's be honest, coordinating projects can be tough, especially when volunteer members are juggling everything themselves. Bringing on a Project Coordinator has made a big difference, helping us stay organized and ensuring that we complete our work in a timely and effective manner. We're excited about the positive impact this role has made
