The **Statewide Self-Determination Advisory Committee (SSDAC)** invites you to share stories and examples of how SDP has made a positive impact in the lives of individuals with intellectual/developmental disabilities, their families, and their communities. Your experiences help demonstrate why the SDP is important and why continued federal funding is critical to keeping the program strong and available statewide.

At this Town Hall, we especially welcome comments that describe:

- Impact on quality of life, stability, or access to services
- Positive outcomes for individuals, families, or providers
- Why continued funding for SDP matters to you

Your voice matters. These stories will help inform the waiver renewal process and show the real-world impact of SDP on people's lives.
